Did PT Supreme energy synchronize Rantau Dedap geothermal unit 1?

In a report on the company's LinkedIn page, PT Supreme Energy has announced that it has initiated the first synchronization of the Rantau Dedap geothermal unit 1 of 49 MW on October 5, 2021. "Unit 1 was successfully synchronized to the PLN power grid and exported 25% load of STG ~15MW by 31kg/s steam." (Ralph Hoellmann, Engie)

What does the Montserrat Energy Department do?

To collaborate with various regional and international development partners to facilitate the implementation of Energy Efficiency, Energy Conservation and Renewable Energy programs and projects. The Montserrat Energy Department is launching the next phase of its Efficient Energy initiative by distributing 250 Plug-In Meter Readers.

How much does electricity cost in Montserrat?

Montserrat's utility rates start at \$0.53 per kilowatt-hour (kWh) for residential customers, which is above the Caribbean regional average of \$0.33/kWh. Like many island nations, Montserrat is almost entirely dependent on imported fossil fuels, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.
