

He, they mention, recently announced the launch of the "MC Cube-SIB ESS" product. The "Long Blade Battery" as a proprietary form factor of BYD has a "CTS super integrated design", making it the world's first high-performance sodium-ion battery energy storage system (BESS). It has ultra-high energy density, exceptional safety ...

BYD's MC Cube uses blade batteries, omitting the battery pack segment. Its modular design of container assembly reduces material and assembly costs and increases the versatility of ESS containers. With other companies following suit and introducing blade or blade-like cells, the design concept of the MC Cube is gaining traction. 2.

According to BYD Energy Storage's UK and Ireland head Kai Wang, "the MC Cube-SIB ESS is the world's first high-performance sodium-ion BESS product. It has a nominal voltage of 1200V, and a voltage range from 800V-1400V."
