## Syria price of 30kw solar system

How much does a solar system cost in Syria?

The cost of solar systems for most domestic uses, outside the framework of production projects, ranges between 4 million and 14 million Syrian pounds, according to what Enab Baladi monitored from the websites of companies that install power systems in regime-controlled areas.

Does Syria have solar energy?

Northeastern Syria, which is mostly under the control of the Autonomous Administration, is witnessing the spread of solar energy systems, like most Syrian regions, but they seem to be limited in the homes and facilities of families living in a good economic situation, according to what Enab Baladi monitored.

Is Syria a good country for solar energy?

Regarding wind energy, which is the second source of energy, Syria is not considered one of the countries that have a sufficient amount of wind throughout the year to produce electricity, and therefore the solar energy situation is regarded as the best in it.

How much energy does a Syrian house need?

Nabil,36,a resident of the countryside of Daraa governorate,told Enab Baladi that operating an entire house on solar energy needs at least 12 million Syrian pounds,a budget that is difficult for most families to secure in light of the deteriorating economic conditions.

Are solar panels a better option than losing electricity in Syria?

According to an opinion poll conducted by Enab Baladi, a number of Syrians residing in various governorates considered that alternative energy through solar panels is a better option than losing electricitydespite its high costs and regardless of the controlling parties.

Are solar panels a viable alternative energy source in Syria?

As an option that seemed to be one of the best alternative energy sources in Syria,reinforced by the absence of fuel, the spread of solar panels began in most regions, respectively, years ago, amid "government" support and adoption of this trend.

4. A subsidy amount of 3kW on grid solar systems is Rs. 43,764 by the central government. There are some states that provide a state subsidy of 30,000 for a whole system. That means, you will get Rs. 43,764 to 73,764 but you need to invest all the cost of the solar project yourself. A subsidy amount will be withdrawn within 30-60 days in the consumer bank ...
