São Tomé and Príncipe signed a memorandum of understanding (MoU) on 23 August with UK's Global OTEC Resources and France's Enogia for the development of a pilot ocean thermal energy conversion (OTEC) platform. Known as Dominique, the 1.5MW floating facility will be installed in the Gulf of Guinea. Global OTEC will act as the technology and ...

UNIDO is supporting São Tomé and Príncipe (STP) on project that aims to decrease electricity demand-side losses in São Tomé and Príncipe (STP), through the introduction and implementation of Minimum Energy Performance Standards (MEPS) and energy labels, for three main electric appliances: lighting, refrigerators and air conditioners.

The first phase of the programme will be to install solar PV plants at the national airports in São Tomé and Príncipe (1.100kW) and on the island of Príncipe (300kW). Clean energy produced by these installations will be added directly onto the grid. This will go a long way towards revolutionising both São Tomé and Príncipe's relationship with energy ...
