

What is Taiwan's innovative green economy roadmap?

Taiwan's Innovative Green Economy Roadmap (TIGER) is a two-year program with the MIT Energy Initiative, exploring ways that industry and government can promote and adopt technologies, practices, and policies that will keep Taiwan competitive amid a quickly changing energy landscape.

Can Taiwan supply energy for its economy?

"They're all interested in how Taiwan can supply energy for its economy going forward -- energy that meets global goals for decarbonization," says Robert C. Armstrong, the Chevron Professor of Chemical Engineering Emeritus at MIT, as well as a principal investigator for the Taiwan Innovative Green Economy Roadmap (TIGER) program.

Can Taiwan increase its supply of green energy?

The research addresses options for Taiwan to increase its supply of green energy, methods for storing and distributing that energy more efficiently, policy levers for implementing these changes, and Taiwan's place in the global energy economy.

What is Taiwan's energy security?

Taiwan's energy security is a complex and serious issue, one that cannot be sacrificed to populist or activist sentiment. The future of Taiwan's energy mix must be determined through a rational, fact-based lens, with a clear focus on maintaining economic competitiveness and global leadership in high-tech industries.

Where is advanced energy located?

Advanced Energy builds a diversified and global business, delivering advanced power and control technologies. No.62 QiGuan Road West. ShiQi District, Zhongshan City. Advanced Energy has devoted decades to perfecting power for its global customers.

Can Taiwan secure its energy future?

The MIT Energy Initiative and a consortium of Taiwanese companies are exploring how Taiwan can secure its energy future as the world transitions away from fossil fuels.
