21 ????· Mumbai (Maharashtra) [India], December 13 (ANI): Tata Consultancy Services (TCS) has partnered with Landis+Gyr, an energy management solutions company based in Cham, Switzerland, to deliver innovative, flexible energy efficiency solutions for utilities, the Tata Group's arm informed the exchanges on Friday. The company stated that these energy ...

The energy company improved its security posture with an integrated defense of IT-OT ecosystems. TCS' solution, powered by advanced security analytics, provided them with centralized visibility into potential threats and vulnerabilities across IT-OT systems. The transformation significantly reduced the time to detect and respond to threats.

They are now equipped with distributed energy resources (DER). These are small-scale energy generation sources such as roof-top solar equipment, microturbines, and wind, and energy storage systems that could provide short-term power. Buildings may also participate in reducing energy load when the grid is likely to face a supply shortage.

TCS Clever Energy(TM): New revenue streams for business and commercial customers from value-added energy management services. TCS InTwin(TM): Industrial analytics and digital twin across the enterprise. TCS DigiFleet(TM): Optimization of fleets ...

Barbados: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO₂ - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.
