Who is Terra Firma solutions?

Terra Firma Solutions is a turnkey energy engineering solution provider based in sub-Saharan Africa. It delivers a start to end solution, beginning with strategy development, and leading to project implementation, support and maintenance.

What does Terra Firma do?

Terra Firma has installed numerous large rooftop photovoltaic (solar) energy systems and has over 800 sites under remote energy and water management through its in-house developed smart software.

What is the culture of Terra Firma Solutions?

At Terra Firma Solutions, we believe in a win-win-win culture: Win for our clients, win for the environment, and win for Terra Firma Solutions. Terra Firma Solutions (Pty) Ltd was founded in Cape Town in January 2012. In February 2013, the Lubner Family and SASFIN Bank became contributing shareholders. Terra Firma Solutions opened its Johannesburg offices.

Who are the terra firma consultants?

The terra firma Consultancy Ltd. is led by three directors and consists of eight Chartered Landscape Architects, three Assistant Landscape Architects, and four Junior Technical and Administrative staff. Therefore, the terra firma consultants are the Chartered Landscape Architects, Assistant Landscape Architects, and Junior Technical and Administrative staff of The terra firma Consultancy Ltd.

What equipment does Terra Firma use?

Terra Firma only works with quality, approved equipment to ensure that maximum yields are achieved with the best possible return on investment. We only use tier 1 modules (solar panels) and tried-and-tested inverter and battery storage manufacturers that have long-term warranties.

Terra Firma Solutions is a leading turnkey energy engineering solution provider in Africa. We deliver a start-to-finish energy solution, beginning with strategy development, leading to project implementation, support and maintenance. Our company has built over 120MW of solar PV in the commercial and industrial sector across the African Continent.

PLANT O& M Terra Firma provides a comprehensive Operations and Maintenance (O& M) service, including routine cleaning, inspections and preventative maintenance on our solar PV and battery energy storage (BESS) plants.
