Who is Titan solar power?

As the Nation's leading Rooftop Solar Contractor\*, Titan Solar Power partners with like-minded Solar Sales Companies and Dealers to deliver world-class installations with industry-leading customer experience. Titan handles all aspects of a solar module installation. We take pride in our work and know that it will stand the test of time.

How does a Titan solar panel work?

Titan will have little control over how long this step is going to take! The solar panel's job is to take excess electron energy and turn it into electric power. Silver acts as the conductor to pass electricity on to an inverter. The inverter acts as the brain of your solar system.

How does Titan install a solar system?

After permit approval, Titan will contact the property owner to schedule installation. When Titan's install team arrives, they will go over the design plans for final approval before they begin. Once the Titan installation crew wraps up the job, they'll finish by giving the property owner a full Solar 101 on the system.

Why should you choose Titan solar?

Titan handles all aspects of a solar module installation. We take pride in our work and know that it will stand the test of time. Solar is what we do and what we excel at. As a Titan partner, you can rest assured we are just as committed to ensuring every one of your customers are elated with their decision to go solar.

Is Trina Solar a good company?

Trina Solar is ranked one of the leading solar panel companies in the world. Below is a list of their most popular solar panel products and their prices. Also known as Solar Talker, Talker Energy solar panels are reputable products, and they comprise multi-crystal solar cell with an efficiency of over 17%.

What happens after Titan sells a solar system?

(We are happy to suggest sales companies if you need recommendations!) After your sale is finalized, your dealer will contact Titan with your paperwork. Once this process has been completed, Titan will reach out to you to customize your design plan, install the system, connect it to the grid, and start your solar savings!

Titan Solar Power does NOT know what they're doing! Installed the solar panels, and everything seemed ok outside of not following Burbank's requirements which required a revision of AC/DC, outlined on Burbank's website. First inspection was scheduled for February 9th from 7-9 am. At 3:30 pm, I called and emailed Jessica with no response.
