Las tres islas de Tokelau, parte de Nueva Zelanda, se han convertido en el primer territorio que cubre el 100% de sus necesidades eléctricas con energía solar. ... Y ahora se han convertido en el primer territorio en cubrir el 100% de sus necesidades eléctricas con energía solar. Nueva Zelanda, que administra Tokelau, creyó en un proyecto ...

The makers of the documentary "The Solar Nation of Tokelau" have made their work available online from the Tokelau website (home page, top left), so the Tokelau community can see it for themselves. Warning, the 44-minute documentary file is a very large mp4 file that may take some time to download.

Además, Tokelau es un lugar ideal para la energía fotovoltaica: situado justo al sur del Ecuador, la irradiación solar es prácticamente constante todo el año. Los tres atolones de Fakaofu, Nukunonu y Atafu operan ahora con un sistema híbrido propio: con una potencia total de 1 megavatio, las instalaciones generan más energía de la que ...

Mit einem Greiner Solar- oder Photovoltaik-Dach zapfen Sie die kostenlose Energie der Sonne an, leisten einen wichtigen Beitrag für unsere Umwelt und sparen bares Geld dabei. Tokelau was the first nation in the world to go 100% solar in 2012. Now the country is aiming to keep its fully renewable energy status in the future using wind power. This is going to reduce the need for diesel fuel backup in prolonged times of cloudy weather, and when the solar cell system needs maintenance.
