At the event, we'll showcase the groundbreaking MicroCube®; micro wind turbine, heralded by the U.S. Patent Office as the "First truly new generator design in 100 years."

U.S. VIRGIN ISLANDS - Virgin Islands Energy Office Director Kyle Fleming is pleased to announce that coming next month the territory will play host to the 2024 Electric Vehicle S... Explore More June 25, 2024 VIEO Admin

U S Virgin Islands stored energy solutions

The installment of battery energy storage solutions (BESS) in six solar parks across the U.S. Virgin Islands has begun. The solar array and BESS will boost the islands' decarbonization efforts by fulfilling 30% of its energy consumption through renewable sources.

HOUSTON -- Honeywell today announced it will provide VIElectron, a CB Loranger Company, its first installment of battery energy storage solutions (BESS) to six solar parks strategically positioned across the U.S. ...

U.S. VIRGIN ISLANDS -- Governor Albert Bryan Jr. is leading the charge towards a greener and more resilient future with an unprecedented collaboration between global technology leader Honeywell and VIElectron, a CB Loranger Company. This visionary partnership is set to transform the energy landscape of the US Virgin Islands through the deployment of cutting-edge Battery ...

We work with renewable energy production, management of waste residues and water treatment solutions, helping islands to reach carbon neutrality. With over 20 years of experience, Island Power Solutions is a specialized company of Universal Kraft, highly skilled in the renewable energy sector. We are specialists in design and integrate non ...

Upon completion, these solar arrays, coupled with the BESS, are projected to fulfill 30% of the islands' energy consumption through renewable sources, significantly advancing their ...

U.S.VIRGIN ISLANDS - After years of diligent efforts and strategic negotiations with HUD, White House officials, and congressional leaders, Governor Albert Bryan Jr. proudly announces the approval of \$100 million in funding from the U.S. Department of Housing and Urban Development (HUD) through the Community Development Block Grant - Mitigation (CDBG-MIT) program. ...

APR Energy's technology has proved to be superior in reliability when power was needed most. When Hurricane Maria hit the islands in 2017, APR Energy was one of the only power sources on the island that remained online, injecting critical power into the grid. As a reliable supplier, we complement WAPA's power generation on a consistent basis.
