Runergy secures its position as a BloombergNEF (BNEF) Tier 1 PV Module Manufacturer for the second quarter of 2024, reaffirming its strong bankability, global market reputation, and superior quality of PV module ...

Solar Module Solar Cell Solar Cell To help clients achieve low LCOE, Hyperion launched H1 Series high performance Mono PERC double glass modules. Datasheet Solar Module P-Type Series With its unique patent and technology, Runergy launched its advanced and complete PERC product line for global customers Read More N-Type Series As a pioneer in PV [...]

CSR Commitment of Supporting the Ten Principles of the United Nations Global Compact Our company supports the Ten Principles of the United Nations Global Compact on human rights, labor, environment and anti-corruption. With this communication, we express our commitment to making the UN Global Compact and its principles part of the strategy, culture and day-to-day [...]

High Conversion Efficiency Module efficiency up to 22.8% based on N-Type wafer and advanced N-Type cell technology Excellent Energy Yield More power output in field operation due to better thermal behaviors, weak-light performance and bifaciality Outstanding Anti-degradation Unsusceptible to LID, LeTID and less annual degradation due to special characteristics of N ...

CODE OF CONDUCT OF RUNERGY April, 2024 At RUNERGY, we are committed to conducting our business in accordance with applicable laws and regulations in all the countries where we operate. This Code of Conduct outlines the commitment to compliance and ethical conduct by RUNERGY and its Affiliates (RUNERGY and its Affiliates hereinafter referred to as [...])

Runergy has recently announced that the company's dual glass photovoltaic (PV) modules have achieved the Class 1 (the highest level) fire resistance certification from the Italian CSI laboratory, demonstrating outstanding performance in a series of rigorous tests conducted in accordance with the UNI 9177 standard.

The full series of Runergy"s dual glass ...

Runergy has recently announced that the company"s new generation N-type double-glass solar modules demonstrated excellent performance in the Product Qualification Program (PQP) by PV Evolution Labs (PVEL), a globally recognized independent testing laboratory. The comprehensive evaluation, consisting of six reliability tests, verified the ...

Jiangsu Runergy New Energy Technology Co., Ltd. wurde 2013 gegr#252;ndet und ist heute ein weltweit f#252;hrender Anbieter von ... Runergy hat sich verpflichtet, die Umweltbelastung der Solarzellenproduktion durch kontinuierliche, unabh#228;ngige Innovationen zu verringern. Die Zusammenarbeit mit dem

Runergy has recently announced the commencement of production at its state-of-the-art solar module manufacturing facility in Huntsville, Alabama, USA. This significant milestone represents an important step in Runergy"s strategic expansion into the North American market, reinforcing its commitment to delivering innovative solar solutions globally. The facility ...

Adapting to market volatility, Runergy transitioned from its start as a technical services provider to establishing a vertically integrated industrial chain. Tang Jun, President of Runergy, explains how this strategy is good not only for the company, but for the industry as a whole. How has Runergy adapted to solar market volatility and the changing [...]

Runergy, a leading solar energy company, showcased its cutting-edge photovoltaic (PV) modules at RE+ 2024, North America"s premier solar energy exhibition held at the Anaheim Convention Center. The company presented a diverse range of high-power PV modules that combine excellent performance in reliability, quality and long-term value with full ...

FAQ Company Learn more about us Adhering to the mission of "technology changes the world, photovoltaic protects the earth" and relying on the values of "low-key, practical, sincere and grateful", we are committed to the realization of the corporate vision of creating value and supplying clean energy for the society. What is Runergy Solar"s manufacturing [...]

High Conversion Efficiency Module efficiency up to 22.8% based on N-Type wafer and advanced N-Type cell technology Excellent Energy Yield More power output in field operation due to better thermal behaviors, weak-light performance and ...
