

How many turbines will Vestas supply for Oranjewind offshore wind project?

Vestas has secured a 795MW order to supply turbines for the OranjeWind offshore wind project, a joint venture between RWE and TotalEnergies. The project, previously known as Hollandse Kust West VII, will be located 53km from the Dutch coast in the North Sea. Vestas will supply, deliver and commission 53 V236-15.0MW turbines.

Will Vestas get a GW wind turbine in Scotland?

Vestas has won an order for the 1.1 gigawatt (GW) Inch Cape Offshore Wind project in Scotland from Inch Cape Offshore Limited, an equal joint venture between ESB and Red Rock Renewables, the Danish wind turbine maker said on Friday.

Where are Vestas wind turbines made?

Vestas Wind Systems is a leading wind turbine manufacturer based in Denmark. Vestas' headquarters are currently located in Aarhus, but the company also boasts offices in 24 countries worldwide and has five regional sales business units: Northern Central Europe, Americas, Mediterranean, Asian Pacific, and China.

What topics are on the Vestas blog?

Learn more about sustainability, technology, energy transition, markets or one of our other blog topics. Swipe below to explore and see all topics of the Vestas Blog. Vestas is the renewable energy industry's global partner on sustainable energy solutions. We design, manufacture, install, and service wind turbines across the globe.

Why is wind energy important to Vestas?

Wind energy is our heritage and core competence. We believe wind will form the backbone of the sustainable energy systems of the future, and we remain focused on developing solutions that accelerate the energy transition and strengthen Vestas' continued leadership in wind.

How many V236 MW turbines will Vestas supply?

Vestas will supply, deliver and commission 53 V236-15.0MW turbines. Vestas will begin turbine installation in 2027. On completion, it will provide maintenance under a five-year service agreement, followed by a long-term operational support contract.
