

What are the Trina brand photovoltaic panels

What kind of solar panels does Trina Solar offer?

Trina Solar offers a diverse range of panels, from cost-effective mono-crystalline PERC panels to advanced bifacial panels. The latest Vertex and Vertex S+(small) series of high-performance panels boosted Trina Solar's standing as a manufacturer of advanced high-efficiency panels. See the detailed Trina solar panels review.

Are Trina Solar panels AA rated?

In recent bankability listing by PV Module Tech, Trina Solar were AA rated which was the second high ranking. As a long standing brand in the Australian market, Trina Solar panels have been used across a broad array of residential, commercial and solar farm projects in Australia dating back to the early 2000s.

Which Trina Solar panels are used in Australia?

Vertex Series are the most used Trina solar panels in the Australian market now. There are several sub-series including Vertex S, Vertex S+, Vertex N, Vertex Backsheet and Vertex Bifacial. All the Vertex Series solar panels use monocrystalline solar cells which means the Silicon used is purer than polycrystalline.

Is Trina Solar better than SunPower?

Overall, Trina Solar offers above-average solar panels at a below-average price. While they may not be as efficient as SunPower, they're not too far behind. Looking at the table above, Trina Solar's Vertex S+ panel is 1.2% less efficient but about 20% cheaper per watt than its SunPower counterpart.

How do I know if Trina Solar is right for my home?

Ultimately, the best way to determine whether Trina Solar is the best solution for your home is to review multiple quotes with different solar equipment before deciding. Read EnergySage's review of Trina Solar, based on product specifications for every Trina solar panel series, to make your solar research process easier.

Where are Trina Solar panels made?

By the end of April 11th, 2022, their annual production capacity cumulative shipments of PV modules had exceeded 100GW. Trina has 3 manufacturing plants located in China, Thailand and Vietnam, it is reported that they have a 50GW+ company-wide production capacity. This makes them a top 5 solar panel manufacturer globally.
