

Yazaki energy system Singapore

What is Yazaki Systems Technologies?

Yazaki Systems Technologies is a company that develops, produces, and distributes wiring harnesses including the associated components for on-board electronics. They have joined CharIN and are particularly interested in the valuable exchange on communication solutions between the battery charging point and the onboard charger.

Who is Yazaki Electric Wire Corporation?

Established as Yazaki electric wire corporation in 1963 and changed its trade name in 2012. (055)924-2230
General plastic wire, polyethylene wire, power cable, communication cable, fire-resistant/heat-resistant/disaster prevention cable, ecology cable, branched cable (Yazaki branch)
(0550)89-1811

What is Yazaki unit cable?

The Unit Cable is custom designed to each customer's unique electric layout design and the electrical wires are pre-manufactured in Yazaki's quality controlled process, using standard cutting & crimping machines and are 100% electrical tested, so that the system has no short circuit.

Who are Yazaki Group connectors?

Yazaki Group connectors, well-known for their impact, vibration and environmental resistance and other features, have a long history in the automotive industry, where we are recognized as a leading developer and manufacturer of top caliber and extremely reliable products.

What is a Yazaki absorption chiller-heater?

A Yazaki absorption chiller-heater, using water as the refrigerant, is today's best choice in air conditioning for protecting the environment and reducing the cost of energy. Capacities of 5 through 200 RT are available to either cool or heat installations such as schools, offices, hospitals, industrial facilities, and hotels.

Why should you choose Yazaki?

Yazaki is also the largest market provider for building wire solutions in Japan and the largest electric wire and cable solutions supplier in Thailand. High quality products that are the destination for customers who require high and reliable performance. Largest Electric wire manufacture in Thailand.

Water Fired SINGLE-EFFECT Chiller or Chiller-heater Yazaki water-fired SINGLE-EFFECT chillers (with cooling capacities of 5 to 100 tons of refrigeration) produce chilled water for cooling, while chiller-heaters (with cooling capacities ...

Since the sales of the "LP10," the first commercialized LP gas meter in Japan, in 1963, Yazaki Group has been providing equipment and services for the safe use of gas, an indispensable source of energy for our lives.

Yazaki energy system Singapore

241,484 ...

Yazaki MG-Series gas-fired DOUBLE-EFFECT chiller-heaters, with cooling capacities of 150 and 200 tons of refrigeration, are designed for commercial applications where chilled water and hot water are used in a central air conditioning system. The condenser is water cooled and heat is rejected through a cooling tower.

For more information on how Yazaki Energy Systems, Inc. can help with your solar, waste heat, or gas cooling roject, contact us at: Yazaki Energy Systems, Inc. 701 East Plano Parkway, Suite ...

By utilizing waste heat, our systems maximize energy efficiency while reducing operational costs. In addition, our thermal chillers and non-electric chillers provide effective process cooling, ensuring optimal performance without the need for electric power. ...
